

1. Composition

Raw materials: 2.20.1 vegetable soya oil, 1.2.7 maize fibres

Technological additives: 1g-binder, 1i-antimotting agent: precipitated and dried silicic acid (E551a), 1b antioxidant extracts rich in tocopherols from vegetable oils 1b306(i)

Sensory additives: 2b- mixture of aromatic substances (5.73%)

2. Physical constants

Aspect: Pellets

Odor: Spices

Color: Orange to beige

Density: 0.57 +/- 0.05

3. Recommended dosage

Dairy cows

. Dry cows: 1.3 g / animal / day (100 g / MT of DMI)

. Lactating: 2 g / animal / day (100 g / MT of DMI)

Other cattle

. Calves (2-4 months): 0.3 g / animal / day (100 g / MT of DMI)

. Young Cattle Growth (6-10 months): 0.5 g / animal / day (100 g / MT of DMI)

. Young Cattle Fattening (8-18 months): 1 g / animal / day (100 g / MT of DMI)

. Suckling cow: 1.3 g / animal / day (100 g / MT of DMI)

Ewes / goats

. Dry: 0.1 g / animal / day (100 g / MT of DMI)

. Lactating: 0.3 g / animal / day (100 g / MT of DMI)

. Breeding stock: 0.2 g / animal / day (100 g / MT of DMI)

Lambs and kids

. Growing and fattening: 0.1 g / animal / day (100 g / MT of DMI)

4. Miscellaneous

Regulatory Compliance : comply with regulation (EC) 1831/2003

Compliant with Regulations 2017/53 to 66 EC of 14 December 2016

Labeling : premixture

GMO : No GMO accordance with Regulations (EC) 1829/2003 and 1830/2003

Ionization : Product nonionized / non-irradiated according to Directives 1999/2/EC and 1999/3/EC

Origin : The product does not contain any material or substance of animal origin.

Preservation : Dry, temperate, ventilated area, away from light and odors. Store in the original packaging, sealed

Shelf life: 24 month(s)

cardboard - 20.00 kg
